

## REPRESENTATIVE NEEDED

The Town of Claresholm recently became a member of CRAZ – Calgary Region Airshed Zone. An airshed is a group of stakeholders (government, industry, non-profit, public) that work towards maintaining and improving the air quality in a geographical zone. You can visit their website <https://craz.ca/>

As a member, we are entitled to send a representative to their Annual General Meeting in July. This representative can also join one of the group's committees and lead the direction of CRAZ. The committees include: engagement, air quality management, technical, finance and smoke.

CRAZ Mission: monitor, analyze, and engage with stakeholders to develop strategies that positively impact air quality within the region.

CRAZ commitment to members: CRAZ works hard to empower through initiatives and collaborative learning to schools, municipalities, industries and the general public.

We now have an air monitoring system on the Multi-use Community Building.

The Town of Claresholm is looking for a member-at-large from the community to be our representative on CRAZ. It is a volunteer position that may prove to be very rewarding and enlightening.

Please contact us if you would like further information or submit your interest to the Town of Claresholm.

Attention: Karine Keys  
RE: CRAZ Representative
