## GOPHER BAIT STATIONS ARE OUT

They are a white plastic tube that are not easily accessible to other animals, and clearly identify that they contain poison. They are located in various areas where gophers are known to be a problem such as the cemetery and outlying parks, and are only out until the grass turns green. The product is **GOPHER DOOM**, is sold by **POULIN's Exterminator Services**, and was chosen because it has no secondary kill to cats, dogs or birds. The Town of Claresholm has used it for over 10 years with no reported problems.

**PLEASE CAREFULLY MONITOR YOUR PETS  
AROUND THESE STATIONS!**
